/05 CONFIGURE CONNECTIONS

You will be able to receive navigation data from your control unit, GPS data and AIS information

- The **dongle** must be connected to the computer
- Open **Adrena** software
- Follow this path :

① ② ③

**General menu > Settings > General settings > Connections**

④

/05 CONFIGURE CONNECTIONS

Further information

- For a full description of the different **connection parameters**, press the F1 shortcut key or follow the path below :

❶   ❷   ❸

General menu > Help > Reference manual

Don't forget to validate the General Settings window to take account of the changes you have made

/06 MINIMUM RECOMMENDED CONFIGURATION

- A computer with **Windows 7** or higher

- Minimum screen size **1980X1024**

- **NMEA 0183** connection via **serial port** or **network**

- **USB port Dedicated to the dongle**

- Graphics memory: min. **256 MB**

- Minimum **1.5 GHz multi-core processor**

- RAM: **4 GB** minimum, **8 GB** recommended

- Available disk space: **2 to 4 GB**

A multi-core processor will reduce routing calculation time

BRAVO

You have installed your software
