OCTOPUS NAVIGATION SOFTWARE FOR SMART CRUISING

OCTOPUS 2020 New Features

Version 17

- Rally function: fleet tracking.

- AIS alarms: boats alerts centralized in one same window.

- AIS proximity alarm: alert on boat approach (distance).

- Logbook: addition and modification of notes after the navigation.

- Custom toolbar: shortcuts management.

- Digital data: depth on next low tide.

- Digital data: histographs.

- Chart window extension: mouse over display of ribbon and captions.

- Roadbooks: text entry on the chart and rotation of texts and images.

- Roadbooks: quick access to activation and modification (right-click).

- Importation of a Roadbook linked to a routing (designed with Adrena software).

- Excel table export with layout retention (colors, format, icons, etc).
