

HEADING OVERSEAS! ADRENA TAKES ON WORLDWIDE MARKET

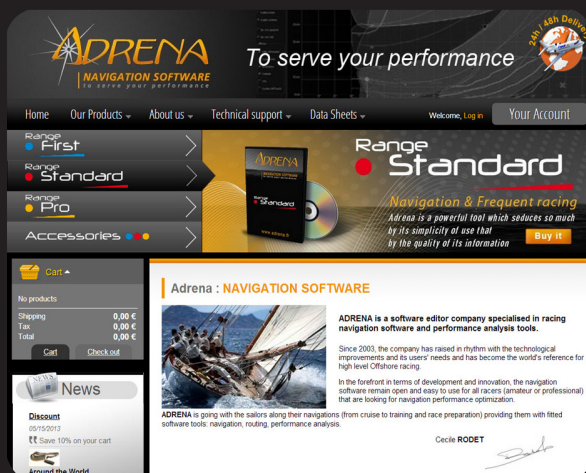

Get your ADRENA navigation software in two clicks!

European leader for inshore and offshore racing navigation software, ADRENA is launching its WebShop: www.adrena-software.com.

ADRENA is used by:

- 100% of Vendee Globe skippers,
- on board 5 out of 6 of the Volvo Ocean Race boats.

It also received last December the High technology price given by the F.I.N (French Nautical Industries Federation).

After conquering the European market, ADRENA is making its software reachable to the whole world.

And more, this WebShop is offering lots of information with :

- product sheets,
- user's testimonials,
- training videos...

For the Webshop opening, ADRENA is offering 10% off on the cart until July 31st, 2013 with code **ADRE10**.

Since 2003, the company has raised in rhythm with the technological improvements and its users' needs and has become the world's reference for Offshore racing.

In the forefront in terms of development and innovation, the navigation software remain open and easy to use for all racers that are looking for navigation performance optimization.

ADRENA is going with the sailors along their navigations (from cruise to training and race preparation) providing them with fitted software tools: navigation, routing, performance analysis...

ADRENA is a software editor company specialised in racing navigation software and performance analysis tools.

Adrena for every occasion according to one's navigation!

Thanks to its 3 ranges, ADRENA provides a complete offer, progressive and that fits any racing level to satisfy as well the amateur as the professional team on international projects:

First Range, Cruising and Occasional Racing.

Standard Range, Navigation and Regular Racing.

Pro Range, Navigation and High-Level Racing.
